OUT OF BOUNDS

Curtain Rods ---- Priceless

- On the first day, she sadly packed her belongings into boxes, crates and suitcases.
On the second day, she had the movers come and collect her things.
On the third day she sat down at their beautiful dining room table. By candlelight she put on some soft background music and feasted on a pound of shrimp, a jar of caviar and a bottle of spring water.
When she had finished, she went into each and every room and deposited a few half-eaten shrimp dipped in caviar into the hollow centers of all the curtain rods. She then cleaned up the kitchen and left.
On the fourth day, the husband came back and moved in with his new girlfriend. At first all was bliss, then the house began to smell. They tried everything; cleaning, mopping, and airing out the place. Vents were checked for dead rodents and carpets were cleaned. Air fresheners were hung everywhere. Exterminators were brought in to set off gas canisters, during which time they had to move out for a few days, and in the end they even had to replace the expensive wool carpeting. Nothing worked! People stopped coming over to visit, repairmen refused to work in the house, the maid quit.
Finally, they couldn't take the stench any longer, and decided they had to move, but a month later, even though they had cut the price in half, they couldn't find a buyer for the stinky house. Word got out and eventually even the local realtors refused to return their calls.
